大学院工学府・大学院工学研究院

SCHOOL OF ENGINEERING

GRADUATE SCHOOL OF ENGINEERING

FACULTY OF ENGINEERING

## 工学部長メッセージ

九州大学工学部長

園田 佳巨

### Message from Dean

Yoshimi Sonoda

Dean, School of Engineering Kyushu University

九州大学工学部は1911年に九州帝国大学工科大学として創立され、今年で110年を迎えました。

この間、日本の拠点大学の基幹学部として先導的研究と充実した教育を行い、これまでに約50000名の卒業生を送り出すなど、工学・技術・産業の発展に貢献してきました。

2021年度からは工学部を新たに12学科に再編し、学部4年間と大学院修士課程2年間を連携させた6年一貫教育をベースに工学系人材の育成に努めることにしました。

工学部には一学年に約800名の学生が在籍しますが、その約85%が大学院に進学し、より高度な専門知識の習得と研究に励んでいます。

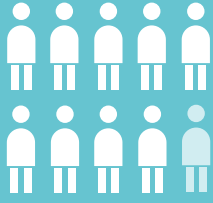

九州大学大学院は工学府・システム情報科学府・総合理工学府・人間環境学府・統合新領域学府などの組織で全ての工学分野を網羅しており、お互いの連携・横断的な研究を通して、持続可能な世界の発展と高度情報化社会の実現に寄与できる工学系人材の育成に努めています。

さらに、学部・大学院のどちらにも国際コースを設置し、国籍が異なる学生と日常的に交流できる環境を整えています。

The Faculty of Engineering in Kyushu University was founded as the College of Engineering of Kyushu Imperial University in 1911 and this year marks the 111th anniversary. Since its foundation, the Faculty of Engineering has played an important role both nationally and internationally in the development of engineering, technology and industry, as one of the key faculties of the leading universities in Japan. The total number of graduates has already reached more than 50,000 so far. From 2021, the Faculty of Engineering has been reorganized into twelve new departments to educate students based on a six-year integrated education linking a four-year undergraduate degree course and a two-year master course program at the graduate school. Currently, almost 800 students are enrolled in the Faculty of Engineering, and around 85% of them carry on to the graduate school, who are working hard to achieve more advanced specialized knowledges and skills in the research. There are five graduate schools covering all engineering fields through mutual cooperation and cross-sectional research at Kyushu University such as, the Graduate School of Engineering, the Graduate School of Information Science and Electrical Engineering, the Interdisciplinary Graduate School of Engineering Sciences, the Graduate School of Human Environment Studies and the Graduate School of Integrated Frontier Sciences. These graduate schools are aiming to actively educate students who can contribute to the sustainable development goals and the realization of a highly information-oriented society. Furthermore, there are several international courses in both undergraduate and graduate schools to create an environment where students can interact with students of different nationalities in a daily campus life.

# Departments

---

## ▼ Graduate

**Department of Materials**  
**Department of Applied Chemistry**  
**Department of Chemical Engineering**  
**Department of Mechanical Engineering**  
**Department of Hydrogen Energy Systems**  
**Department of Aeronautics and Astronautics**  
**Department of Applied Quantum Physics and Nuclear Engineering**  
**Department of Naval Architecture and Ocean Engineering**  
**Department of Earth Resources Engineering**  
**Cooperative Program for Resources Engineering**  
**Department of Civil Engineering**

## ▼ Undergraduate

**Department of Electrical Engineering and Computer Science**  
**Department of Materials**  
**Department of Applied Chemistry**  
**Department of Chemical Engineering**  
**Department of Interdisciplinary Engineering**  
Molecular and Material Engineering Course  
Mechanical and Electrical Engineering Course  
**Department of Mechanical Engineering**  
**Department of Aeronautics and Astronautics**  
**Department of Applied Quantum Physics and Nuclear Engineering**  
**Department of Naval Architecture and Ocean Engineering**  
**Department of Earth Resources Engineering**  
**Department of Civil Engineering**  
**Department of Architecture**

## 海外オフィス Overseas branch offices

九州大学では、「世界的規模での競争的協力関係の構築」という本学の国際戦略に沿って、海外からの優秀な留学生の獲得、及び、海外における学術情報の発信・収集を行うため、海外オフィスを設置しています。

Kyushu University established overseas offices in the following places with the aim of recruiting outstanding international students and transmitting and gathering academic information abroad, according to its international strategy of building a competitive and corporative relationship on a global scale.

海外オフィスへご連絡される場合は、国際企画課国際企画係へお問合せ下さい。  
Global Engagement, International Affairs Division
